title: Need to widen the bridge at KRP dam in Krishnagiri Parliamentary Constituency.

SHRI K. ASHOK KUMAR (KRISHNAGIRI): Hon. Deputy Speaker, in my Constituency Krishnagiri, the NH-7 was developed as a four-lane road from Krishnagiri to Salem. There is an underpass at KRP Dam Junction road which cannot be used by heavy vehicles to cross from one side to the other. There are about ten villages and private and Government schools nearby KRP Dam and the dam is also a tourist place. The KRP Dam is on the opposite side of the NH towards Krishnagiri to Salem road. The State transport and school buses are crossing the midway of the NH road to take service lane to reach KRP dam and surrounding villages. I urge upon the Government to widen the bridge.
